Monitoring

Regular monitoring is one of the ways we make sure IPs are keeping up to date – but the process benefits you in other ways too. Our approach to monitoring is constructive, helpful and user-friendly. Our insolvency reviewers have practical experience of day-to-day insolvency casework and offer practical suggestions to help you develop your systems. We'll:

- discuss your practice's systems and controls for insolvency work;
- look at the work you have carried out as part of your annual insolvency compliance review;
- look at a sample of case files;
- discuss the issues we find;
- give you a written summary of any key issues; and
- ask you to respond to our findings.

Talk Insolvency and webinars

Our online community gives IPs the opportunity to share experience with peers through the forum and learn from our expert bloggers about the key issues affecting insolvency professionals. Our free webinar series features expert presentations on specialist topics or current issues, streamed direct to you at your desk.
