Internet bandwidth	<p>The minimum bandwidth required for the Remote Invigilation session is 2.5Mbps.</p> <p>The recommended bandwidth required for the Remote Invigilation session is 2.8mbps on top of the bandwidth requirements for the exam system.</p>

	Wi-Fi is supported but we would recommend a fixed internet connection to the student's device. Tethering to a mobile phone/hot spot is not supported.
Software to be locally installed	None. The Remote Invigilation Google Chrome Plug-in will be installed automatically when the student accesses the log in page. The student will then need to give permission for the installation.  On a mobile device the Remote Invigilation app must be installed.
