

Corporate Reporting resit guidance

If you are resitting Corporate Reporting in 2021, we strongly recommend you read this document as it explains some of the changes we have made to ACA exams.

EXAM SOFTWARE

It is vital you become familiar with how the new software works and its various functions. We have created exam practice software to be used alongside any question practice.

Click [here](#) for more information on the practice software.

DATA ANALYTICS SOFTWARE

The Corporate Reporting exam now includes the use of data analytics software. Approximately 10 marks will be allocated to the direct use of the software.

You will need to be familiar with how the software works and how it should be used in the exam. It is important that you work through the guidance notes, using the practice datasets that we have created. You should then attempt the practice questions.

ADVANCE INFORMATION

The Corporate Reporting exam now has advance information included to help you prepare for your exam. The advance information will be available at [icaew.com/corporatereportingdas](https://www.icaew.com/corporatereportingdas) for weeks prior to your exam.

The Corporate Reporting advance information comprises a document and an 11-month data set. The document will not be posted to you, however it will be available in the exam within the resources panel. You will also be able to add the advanced information to your bookshelf by visiting the [Corporate Reporting data analytics webpage](#) and selecting the relevant edition. The digital version will not be added automatically, you must visit the ebookshop for it to be available on your bookshelf. The advance information is still available as a [traditional PDF](#), which can be printed and taken to your exam.

DIGITAL LEARNING MATERIALS

Exams are digital, now learning materials are too. This allows them to be accessed wherever you are, on the device that is most convenient for you be it on a mobile, tablet, laptop or desktop.

The digital workbooks work much like printed/traditional/hard copy books in that you can still add notes to them and highlight them, but with the additional benefits of being able to search for key terms, change the settings to make them easier to read, and have the book read itself to you with the text to speech function.

Visit the [bookstore](#) to purchase your learning materials. The price of your learning materials depends on which level you are studying. You can [view the prices for 2021 here](#). You can use your ICAEW account login details to access the [ICAEW Bookshelf](#) via the Bibliu app or browser.

A link to your ICAEW Bookshelf account will be available in your exam. This will give you access to all your downloaded books, including any notes/highlights.
