

## Please check you've used the correct Capital Gains Tax rate

On the Capital Gains Tax (CGT) page of your 2024 to 2025 Self Assessment return, you declared a disposal made on or after 30 October 2024.

The main rates of CGT increased from that date, from 10% to 18%, and from 20% to 24%. So, we're writing to ask you to check the rates you applied. If you used the old rates, you may owe more CGT.

There were no changes to the rates for:

- residential property gains
- disposals eligible for business asset disposal relief
- carried interest.

## What you need to do by [SEES to insert date 30 days ahead]

If you used the old rates for a disposal made on or after 30 October 2024, you need to amend your 2024 to 2025 Self Assessment return. Go to GOV.UK and search 'Self Assessment tax returns'.

Please use our online tool to work out the adjustment for disposals of assets on or after 30 October 2024. Go to GOV.UK and search 'work out your Capital Gains Tax adjustment'.

We'll charge interest on any tax you pay late. For more information about this, go to GOV.UK and search 'pay your Self Assessment tax bill'.

If you think your Self Assessment return is correct, please contact us to explain why the lower CGT rates apply. Our details are at the top of this letter.

## If you don't contact us or amend your Self Assessment return by [SEES to insert date 30 days ahead]

We may:

- amend your Self Assessment return based on the information we have.
- open an enquiry, also known as a compliance check.

If our compliance check shows that you owe additional tax, you'll have to pay interest on any overdue amounts.

If you take no action and your return is incorrect, we may charge you a penalty. For more information about inaccuracy penalties please read our factsheet CC/FS7a, 'Compliance checks – penalties for inaccuracies in returns or documents'. To do this, go to GOV.UK and search 'CC/FS7a'.

Please remember, it's your responsibility to make sure your Self Assessment return is complete and correct.
