LEVEL 4 ACCOUNTING TECHNICIAN
APPRENTICESHIP STUDENTS

Accelerate your career

ESSENTIAL GUIDE FOR LEVEL 4
APPRENTICESHIP STUDENTS

[icaew.com/level4](https://www.icaew.com/level4)

Welcome

Congratulations, you are on your way to achieving the Level 4 Accounting Technician Apprenticeship which is a fantastic way to kick-start your career in finance and business.

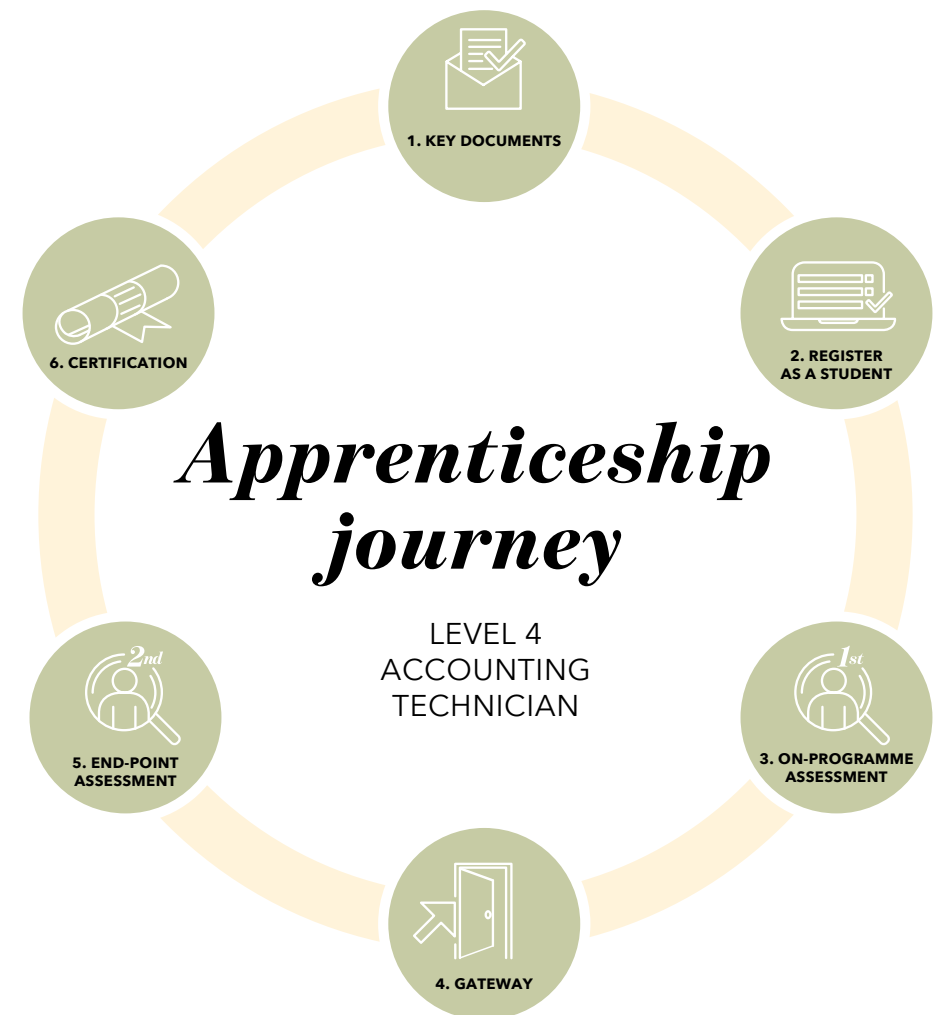

This accounting apprenticeship will help you to develop the knowledge, skills and behaviours needed within an entry-level role in accountancy and will enable you to qualify as a Level 4 Accounting Technician. You will develop your knowledge, skills and behaviours, required by the apprenticeship standard, through a combination of off-the-job training and practical experience in the workplace.

As you start your apprenticeship, we know that your employer and tuition provider will be supporting you, and we are here to support you too. This guide provides you with all the information you will need to complete your apprenticeship. Use it alongside the **ICAEW CFAB student guide**. Your apprenticeship will involve completing the six ICAEW CFAB exams and you'll need to complete additional apprenticeship-specific requirements. Here we explain everything you need to know.

Good luck.

Your journey

The Level 4 Accounting Technician Apprenticeship involves progressing through and completing six stages, the following pages explain each one.

1. KEY DOCUMENTS

You will be given the following documents:

- employment contract; and
- commitment statement and apprenticeship agreement.

Once you, your employer and training provider have signed the commitment statement and apprenticeship agreement, your training provider will register you as an apprentice with the education and skills funding agency (ESFA).

SUPPORT FROM YOUR EMPLOYER

Throughout your apprenticeship, your employer will provide financial support and cover the costs of your training. Studying for the apprenticeship means your employer will support you professionally, helping you to develop the skills needed to become an Accounting Technician.

SUPPORT FROM YOUR TRAINING PROVIDER

Your training provider will support and guide you in developing the knowledge, skills and behaviours necessary for achieving the Level 4 Accounting Technician Apprenticeship. They should be your first port of call for any apprenticeship-specific queries.

SUPPORT FROM ICAEW

We are also here to support you through your apprenticeship journey, providing a variety of resources as you progress through the apprenticeship and the ICAEW CFAB exams, including exam resources, student benefits, exam guides and more. Our dedicated student support team is also on hand to help you with your ICAEW CFAB-specific enquiries, chat to us directly via the live help boxes on our website, email studentsupport@icaew.com or call **+44 (0)1908 248 250**.

2. REGISTER AS A STUDENT

It's really important that you register with us as a student and correctly select the type of student you're registering as. This means we can provide you with the relevant information that you'll need during your apprenticeship and ensures that you are awarded your apprenticeship certificate.

To register as a student, go to icaew.com/studentregistration. Here you will log in to our website and select your qualification and student category before adding your details within the registration process. You will first select 'ICAEW CFAB, USS or CFAB apprenticeship'. Click on 'View qualifications' and then select 'Level 4 apprenticeship'. If you select 'USS' or 'ICAEW CFAB standard' by mistake, don't worry, just log back into icaew.com/studentregistration and re-register. Select 'Level 4 apprenticeship' and follow the instructions on screen. For a detailed step-by-step guide on how to register as a student, visit icaew.com/cfabguides. You can also check your registration status and how to amend this, if required, by following this [guide](#).

Please note it is a government requirement that before you attempt your end-point assessment, you will be asked to demonstrate that you have achieved Level 2 or above GCSE Maths and English (or equivalent). You may need to take an additional Functional Skills assessment, if you have not met this requirement. Your tuition provider will arrange this for you.

APPRENTICESHIP-SPECIFIC INFORMATION

Remember to have your 10-digit unique learner number (ULN) and your nine-digit employer's reference number (ERN) to hand before you register. Your training provider will give you these numbers. They are apprenticeship-specific and you will be asked to provide these details when you register as a student with us. Please note that the ERN, sometimes referred to as an EDRS, is different to your employer's ICAEW authorised training employer number. You may also find your ULN on certificates issued by other exam or qualification-awarding bodies.

If you don't provide these numbers when you register, that's OK, just remember to tell us before applying for your end-point assessment. You will be able to do this via the apprenticeship portal within your ICAEW online training file at icaew.com/trainingfile

3. ON-PROGRAMME ASSESSMENT

The apprenticeship retains the key elements of the ICAEW CFAB qualification, giving you the essential knowledge needed in today's competitive business world.

During the on-programme assessment, you will need to study for the six ICAEW CFAB exams. You will also have quarterly progress review meetings with your employer or training provider to discuss your skills development progress, any further training you need and whether you're ready to move on to the end-point assessment. They will confirm when these meetings are to take place. The duration of the on-programme assessment stage of the apprenticeship is flexible and depends on your progress.

Throughout this time, you will also develop knowledge, skills and behaviours, important for any finance or business role, undertake off-the-job training and update your ICAEW online training file to record your professional development skills progress.

The apprenticeship has two stages of assessment: on-programme and end-point. You will progress through both assessments over 18-24 months.

KNOWLEDGE, SKILLS AND BEHAVIOURS

During your apprenticeship, you will develop knowledge, skills and behaviours, which are essential to help you succeed in any finance or business role. These will be gained through a combination of off-the-job training and practical experience in your workplace.

Below is an overview of the knowledge, skills and behaviours you will work towards and progress.

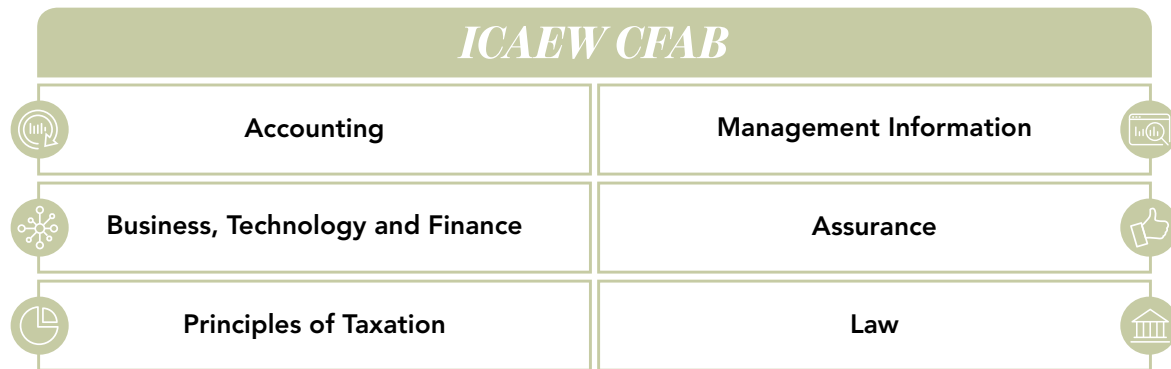

KNOWLEDGE	SKILLS	BEHAVIOURS
<ul style="list-style-type: none"> • Technical knowledge (Option 1 - Accounting, Option 2 - Tax) • Business awareness • Ethical standards • Regulation and compliance • Systems and processes 	<ul style="list-style-type: none"> • Analysis • Communication • Leadership • Planning and prioritisation • Produces quality and accurate information • Team working and collaboration • Uses systems and processes 	<ul style="list-style-type: none"> • Adaptability • Adding value • Ethics and integrity • Proactivity • Professional scepticism

This is a key component of the apprenticeship and you will need to demonstrate that you have met all knowledge, skills and behaviours to qualify as a Level 4 Accounting Technician.

EXAMS

You will need to study for, attempt and pass the six ICAEW CFAB exams. These cover the required knowledge element of the apprenticeship. You can take the exams in any order, at any time throughout the year. Your training provider and/or employer will guide you on which exams you study for and attempt.

The exams are:

See the ICAEW CFAB student guide for more information on the ICAEW CFAB exams at [icaew.com/cfabguides](https://www.icaew.com/cfabguides)

QUARTERLY PROGRESS REVIEWS

You will have quarterly progress reviews with your employer or training provider throughout your apprenticeship. They will provide guidance on your performance and progress. They will also give you feedback on the steps you have achieved within the knowledge, skills and behaviour component of the apprenticeship and support you with any further development you may need. Use the ICAEW CFAB planner to make a note of all your progress review meetings. Print a copy of the planner at [icaew.com/cfabplanner](https://www.icaew.com/cfabplanner).

ONLINE TRAINING FILE

During your apprenticeship, you will update your training log which you will use to record your development during the on-programme assessment. ICAEW provides a training log within your online training file, which you may want to use, alternatively you can use the training log (or equivalent) that is provided by your employer or training provider.

You can log on to the ICAEW online training file any time using your laptop, desktop computer or tablet at [icaew.com/trainingfile](https://www.icaew.com/trainingfile)

OFF-THE-JOB TRAINING

A key benefit of the apprenticeship is that your employer is required to provide you with 20% off-the-job training. This is any learning which is undertaken outside of the normal day-to-day working environment but within normal working hours. It is an essential element of your apprenticeship.

The training can take place away from your workplace, but it can also be done in the office, or where your employer chooses, as long as it isn't part of your normal duties. This includes online learning and practical training, both of which can easily be done at your normal place of work. You may spend time learning new systems, visiting external clients or shadowing colleagues.

Your employer may specify what off-the-job training should look like and involve. However, it will be your training provider who monitors the process and ensures that you spend enough time on this part of the apprenticeship. They will also provide more detail on what is included or counted as off-the-job training and will provide suggestions that align with your employer's current training process.

Here are some examples which can count towards the 20% off-the-job training requirement.

- 1 ICAEW CFAB EXAM TUITION AND REVISION
- 2 MENTORING
- 3 TUITION PROVIDER SKILLS DAYS
- 4 LEARNING (eg, IT SYSTEMS AND SOFTWARE)
- 5 ONLINE LEARNING
- 6 INTERNAL TRAINING
- 7 INDUCTION TO THE ROLE
- 8 STUDENTS' EXCEL ONLINE TRAINING COURSE
- 9 UPDATING YOUR ICAEW ONLINE TRAINING FILE
- 10 ETHICS AND PROFESSIONAL SCEPTICISM TRAINING

4. GATEWAY

Your employer, with the support of your training provider, will confirm when you are ready to move on to the end-point assessment; this is known as the gateway review.

The gateway review is also when your employer confirms that you have completed a minimum of 12 months on the apprenticeship, and achieved GCSE Maths and English at grades A*-C (or equivalent). ESFA regulations state that your employer is required to confirm this information before you sit the end-point assessment.

When your employer has actioned the gateway sign-off, you will be able to apply to sit the end-point assessment. Log in to your **ICAEW online training file** to book your end-point assessment. You will only be able to book the end-point assessment when the gateway has been signed off.

View the employer guide on how to action the gateway sign-off at [icaew.com/level4](https://www.icaew.com/level4)

5. END-POINT ASSESSMENT

The end-point assessment consists of two parts:

- portfolio and reflective statement; and
- role simulation exam.

PORTFOLIO AND REFLECTIVE STATEMENT

The portfolio and reflective statement demonstrates your competence in the knowledge, skills and behaviours required to be an ICAEW Accounting Technician. It is an opportunity for you to show how you have developed competence throughout your apprenticeship and to think about anything you would have done differently, as well as what you have learned through the process.

The professional development section of your online training file will contribute to your portfolio and reflective statement. You will be able to take relevant examples from here, and summarise them for your portfolio and reflective statement.

There are two sections to complete within the portfolio and reflective statement, they include:

- **Section 1:** a brief description of competence in each knowledge, skill and behaviour of 50 words maximum per example; and
- **Section 2:** you will need to explore in more detail and reflect on four skills or behaviours. You will need to write a maximum of 500 words per example (not including the requirements).

When you have completed your portfolio and reflective statement, you will need to submit it to ICAEW for assessment and marking. There are three times during the year when you can submit your portfolio and reflective statement, which coincide with the role simulation exam sessions in March, June and December. You will upload your portfolio and reflective statement when you book your role simulation exam.

The pass mark for the portfolio and reflective statement is 55%.

For detailed guidance on how to complete and submit your portfolio and reflective statement, including templates, examples, marks available and the length of each statement, go to [icaew.com/portfolio](https://www.icaew.com/portfolio)

ROLE SIMULATION EXAM

This is a 2.5 hour long exam which will test the knowledge, skills and behaviours you have developed during your apprenticeship. The role simulation exam is computer-based and available as a remote invigilation exam in March, June and December each year.

Eight weeks before the exam, you will be able to access background information on a hypothetical scenario, this is called 'advance information'. You will need to familiarise yourself with this information before the exam, with the support of your training provider. The advance information will include background information on a company, a recent set of financial statements and an organisational hierarchy. To help you prepare for the role simulation exam, explore the sample and past exams with advance information at [icaew.com/rolesimulation](https://www.icaew.com/rolesimulation), here you will also be able to view the advance information for the upcoming exam.

On the day of the exam, you will be presented with some additional information about the company, as well as a number of tasks for you to work through. The pass mark is 70%. If you score 90% or more, you will receive a distinction. There is no maximum number of attempts for this exam. However if you're unsuccessful and want to re-sit, you must attempt the exam and pass it within 12 months of your first attempt.

Find out more on how to apply and book your role simulation exam, key dates and more at [icaew.com/rolesimulation](https://www.icaew.com/rolesimulation)

6. CERTIFICATION

Once you have successfully completed both elements of the end-point assessment, we will notify ESFA. You will then receive your apprenticeship certificate from the Institute for Apprenticeships (IfA).

AT THE END OF YOUR APPRENTICESHIP

Your apprenticeship will provide a variety of options to you to progress your career. In addition to achieving the Level 4 Accounting Technician Apprenticeship, you have also achieved the ICAEW CFAB qualification which is internationally recognised and respected by employers around the world. The skills that you have developed will not only boost your CV, they will help you to progress further in your career and demonstrate that you have the knowledge, understanding and ambition to succeed.

GAIN PROFESSIONAL RECOGNITION

As an ICAEW Accounting Technician, you can take yourself further by becoming an ICAEW Business and Finance Professional (BFP). By becoming a BFP you will gain recognition from ICAEW, a world-leading professional membership organisation, and have the right to use the BFP designatory letters. You will also have access to professional development resources and continued support from us, such as our invaluable helplines. To apply, you will need to pass our online Ethics Learning Programme and complete or provide proof of 12 months' work experience in a business environment. Find out more at [icaew.com/becomeabfp](https://www.icaew.com/becomeabfp)

CONTINUE YOUR JOURNEY ONTO BECOMING AN ICAEW CHARTERED ACCOUNTANT

By achieving the Level 4 Accounting Technician Apprenticeship, you have already taken your first steps to qualifying as an ICAEW Chartered Accountant. Achieving ICAEW CFAB as a qualification as part of your apprenticeship, means you have also passed the six Certificate Level exams of the ACA.

Once you have completed your Level 4 apprenticeship, you can register as an ACA student, either as a standard ACA student or as a Level 7 Accountancy Professional Apprenticeship student. Your employer or training provider can guide you on this. When you're ready to change your student status, visit [icaew.com/studentregistration](https://www.icaew.com/studentregistration) and complete the application.

Remember to refer to the ICAEW CFAB student guide at [icaew.com/cfabguides](https://www.icaew.com/cfabguides) which provides the information you need on the ICAEW CFAB exams. It will also guide you through the journey to exam success, exam top tips, study resources and benefits.

ANY QUESTIONS?

Our dedicated student support team is on hand to help and advise you throughout your apprenticeship. From queries about your ICAEW CFAB exams, the portfolio and reflective statement, and role simulation exam, through to simply updating your personal details, don't hesitate to get in touch.
