

Accountants in the First World War

Arranged by surname

September 2016

This index has been developed by the ICAEW Library & Information Service to help genealogists who are tracing their family history to find out more about ancestors who were accountants. It also provides tools to help researchers trying to find out more about the history of accountancy firms through the individuals associated with those firms.

This index lists individuals who served during the First World War and were mentioned in reports published in the accountancy press. This includes reports on accountants, their staff and close relatives who were wounded, killed in action, mentioned in despatches, awarded medals or taken prisoner.

The index was first published by the ICAEW Library & Information Service in January 2007 and will continue to be updated in the coming years.

Sources

The index was created by LIS staff who volunteered their time to index the entries from a number of journals within the collection of the ICAEW Library & Information Service. The sources used to compile the current edition were:

- The Accountant
- The Accountants' Magazine
- Associated Accountants' Journal
- Financial Circular
- Incorporated Accountants' Journal

Page numbers in the index refer to the bound copies held by the ICAEW Library & Information Service and may differ from the collections of other Libraries.

How do I obtain a copy of an entry?

The ICAEW Library & Information Service provides a photocopying and fax service and photocopies can be supplied by post or fax. Entries are free for ICAEW members and permitted users, but for all other users a charge of £5 plus VAT applies (per entry). Please contact the LIS enquiry team by telephone on +44 (0)20 7920 8620 or by e-mail at library@icaew.com if you would like to obtain a photocopy of an obituary or biographical note/profile.

Disclaimer

This database is the result of the compilation of a number of finding aids and indices created over a number of years by different staff, who may have applied different criteria to the obituaries and biographical notes/profiles they included. Announcements of death are not generally recorded in this database. No guarantee can be given for the comprehensiveness of the list.

Further information
