Without Question: an innovative teaching tool for universities

***Without Question* is the second film produced by ICAEW which brings to life the challenges and complexities of a fast paced work environment that ICAEW Chartered Accountants operate in. Through this immersive story, students are able to gain an insight into business relationships, decisions and problems enabling them to discuss the ethical implications and far-reaching impact of the actions of the various characters.**

Without Question can be used across your business school as an additional engaging resource to your courses, helping to bring classroom learning to life.

***Without Question* highlights the pivotal role accountants can play in the success or failure of a business.**

Without Question helps to demonstrate the importance of professional scepticism and ethical behaviour in an immersive and complex working environment. It also showcases the professional skills that are vital for successful chartered accountants. Developing these seven key skills at university will make students more employable and start them on their journey towards to completing the ACA. These skills are:

- Adding value
- Communication
- Decision-making
- Problem solving
- Ethics and professionalism
- Teamwork
- Technical competence

Each of these professional skills also follow five key themes that will be vital for the future professional. *Without Question* helps students to use these themes in order to develop their professional skills:

- **Adaptability** - the ability to recognise that business is in a constant state of change and evolution, to be curious about this, and to be flexible and adjust thinking, approach or methods as required.
- **Insight** - the ability to analyse and interpret data and think critically to provide commercial insight.
- **Collaboration** - the ability to partner and consider diverse perspectives to create successful outcomes while being accountable for self.
- **Perspective** - the ability to take a holistic view of business issues and decisions, considering external stakeholder interests and enterprise-wide implications.
- **Learning and reflection** - the ability to reflect on experience, learn and change to be more efficient and effective.
