ICAEW CERTIFICATE IN INSOLVENCY

The ICAEW Certificate in Insolvency is beneficial for those considering a career in insolvency or for finance, legal or unqualified team members working on insolvency cases on a day-to-day basis. This certificate provides a broad understanding of key insolvency principles and covers four key areas: the legal and regulatory framework for insolvency, concepts and principles of insolvency and corporate and personal insolvency. In conjunction with our learning partners, our programme is delivered online – through live interactive classes. Find out more at [icaew.com/certinsolvency](https://www.icaew.com/certinsolvency)

BE LICENSED AS AN IP WITH ICAEW

Whether you are applying for an IP licence for the first time or would like to transfer all your firm's IP licences to us, our streamlined application process is efficient and straightforward.

We offer two types of insolvency licence.

- **Appointment-taking licence** (either a full licence or a partial licence for corporate or personal insolvency specialists). The cost depends on your estimated fee income from regulated insolvency appointments in a calendar year.
- **A non-appointment taking licence** (full or partial). This provides a cost-effective way of protecting your investment in qualifying as an IP and it's straightforward to upgrade to an appointment-taking licence if you want to do so.

We also collect the Insolvency Service and the Department for the Economy levies from our IPs. There's also a levy for the operation of the Insolvency Complaints Gateway.

DID YOU KNOW?

We license more IPs in the largest firms than any other regulator.

ICAEW has two logos which our IPs use to distinguish themselves in the marketplace: one for individual IPs, and a logo for firms if all the IPs in a practice are licensed by ICAEW. Both full appointment-taking and non-appointment taking IPs licensed by ICAEW can use the logos.

‘ICAEW is a premier organisation which upholds the highest of standards in our industry, and it offers a level of support that we felt was not available elsewhere. In addition to this, their educational support is unsurpassed. We are most satisfied with our ICAEW licences and recommend similar ‘hybrid’ firms consolidate accordingly.’

Cameron Gunn
Senior Partner, ReSolve Partners LLP

‘We chose ICAEW because we like their professional approach to regulation. The monitoring cycle is structured around the demands of our business and reviews are robust but fair, with potential issues signposted early in the process and no nasty surprises at the end. Most importantly, we feel we have a shared objective of improving quality, and are able to work collaboratively with ICAEW to meet that objective.’

MONITORING VISITS

We visit all our appointment-taking IPs as part of our monitoring process. For our larger firms that have consolidated their licensing with ICAEW or where we license several IPs in a firm, we will discuss the most efficient way to structure our visit. All our reviewers have significant casework experience and some were previously appointment-taking IPs so are able to provide support and share experiences and best practice.

CONSUMER CREDIT

ICAEW licensed IPs can use our consumer credit arrangements. Depending on the nature of your practice, you may not need to be directly authorised by the FCA. There's no fee to pay and no application process - if you are eligible you can use our arrangements.

Our arrangements use our status as a designated professional body (DPB) under Part 20 of the Financial Services and Markets Act 2000. Therefore consumer credit activities must be incidental and complementary to other professional services.

As an ICAEW IP, your firm may also use our arrangements if it meets the eligibility criteria and all the IPs in the firm are licensed by ICAEW (or another DPB).

There are more details, including information about how incidentality works, at [icaew.com/ccl](https://www.icaew.com/ccl)

ICAEW'S RESPONSIBILITIES AS A REGULATOR

As well as being a recognised professional body for IPs, we are also a:

- recognised supervisory body for statutory and local public auditors and a qualifying body able to award the audit qualification;
- designated professional body for investment business and a supervisory authority for anti-money laundering; and
- regulator of probate services, and a licensing authority for alternative business structures.

‘The process was positive and constructive and the reviewer was open and helpful throughout.’

‘The feedback received was helpful. The whole process was well organised.’

Our role as a world-leading improvement regulator

We protect the public interest by making sure ICAEW's firms, members, students and affiliates maintain the highest standards of professional competency and conduct.

ICAEW's regulatory and disciplinary role is independent of membership activities so that we can monitor, support or take steps to ensure change if standards are not met. This role is managed by the Professional Standards Department and overseen by the independent ICAEW Regulatory Board.

Our role is to:

- **authorise** ICAEW firms, members and affiliates to undertake work regulated by law: audit, local audit, investment business, insolvency and probate;
- **support** the highest professional standards in general accountancy practice through our Practice Assurance scheme;
- **provide** robust anti-money laundering supervision and monitoring;
- **monitor** ICAEW firms and insolvency practitioners to ensure they operate correctly and to the highest standards;
- **investigate** complaints and hold ICAEW firms and members to account where they fall short of standards;
- **respond** and comment on proposed changes to the law and regulation; and
- **educate** through guidance and advice to help stakeholders comply with laws, regulations and professional standards.

Chartered accountants are talented, ethical and committed professionals. There are more than 1.8m chartered accountants and students around the world, and more than 184,500 of them are members and students of ICAEW.

We believe that chartered accountancy can be a force for positive change. So we attract the brightest and best people and give them the skills and values they need to ensure businesses are successful, societies prosper and our planet's resources are managed sustainably.

Founded in 1880, we have a long history of contribution to the public interest and we continue to nurture collaborative global connections with governments, regulators and business leaders. By sharing our insight, expertise and understanding we can create a world of strong economies and a sustainable future.
